Subject: Improving financial health of Calcutta Telephones- proposals thereof

Respected Sir,

We would like to place the following proposals for your kind consideration which may improve the financial condition of BSNL Calcutta Telephones:

1. Curbing of unnecessary AMC charges for DSLAM at NSCBTTC Kalyani:

There is a DSLAM of UTSTARCOM at NSCBTTC Kalyani which do not carry any traffic , situated on standalone basis. This is used for training purposes only. For the maintenance of this DSLAM and RPR, Department has to spend lakhs of rupees as AMC charges paid to M/s UTSTARCOM. It may easily be avoided because there are so may spare parts available at present in different Exchanges due to dismantle of UTSTARCOM DSLAMs there. Moreover, now we have in-house expertise to maintain the said DSLAM , if required. Thus , disallowing the AMC, we can save almost 9 lakhs rupees.

2. Proposal to consider as New Business:

At present, all the Entrance Exam. for professional degree (like CAT, MAT, GATE , GMAT etc.) are being conducted through Online system. Moreover, PSC, UPSC,SSC are also recruiting staffs through Online system Exams. We may develop infrastructure at the training centre to conduct such Exams. of the Govt. agencies and offer it in a competitive price. Thus we can generate revenue in the New Business sector.

We hope that the above proposals will be taken active consideration for the betterment of Calcutta Telephones.

With regards,

Yours sincerely,

SUBHASIS MITRA
Circle Secretary
